Dayou Chemical supplies 99.5% min maleic anhydride from Shandong, China. Buyers can request FOB China or CIF quotation support with COA, MSDS, TDS, packaging details, and shipment planning.

Supplier Entity

Export-facing website	Dayou Chemical
Company entity	Binzhou Dayou New Energy Development Co., Ltd.
Location	Binzhou Industrial Park, Shandong Province, China
Website	https://dayouchemical.com/

Product Overview

Product name	Maleic Anhydride
CAS No.	108-31-6
Chemical formula	C4H2O3
Grade	99.5% min
Appearance	White crystalline solid or molten liquid
Typical MOQ	1 metric ton
Typical lead time	15-30 days after order confirmation, depending on quantity and shipment plan

Main Applications

- Unsaturated polyester resin and FRP materials
- Coatings and alkyd resin applications
- Adhesives and sealants
- Water treatment chemicals
- Chemical intermediates

Documents on Request

- COA for shipment batch review
- MSDS for safety and import review
- TDS for technical review
- Packing list and commercial invoice
- Packaging or loading photos when available

Packaging and Shipment Discussion

Solid supply discussion	Bag or 500 kg jumbo bag options can be discussed according to buyer quantity and handling requirements.
Bulk or molten discussion	Truck delivery or ISO tank discussion depends on order details, cargo form, and discharge conditions.
Quotation basis	FOB China or CIF requests can be reviewed when buyer provides quantity, destination port, packaging preference, and shipment month.

Information Needed for Quotation

- Target quantity and expected monthly demand
- Destination country and port
- Preferred packaging or cargo form
- Target shipment month
- Required documents: COA, MSDS, TDS, inspection or import documents
- Application or end-use industry
